

Website Requirement Brief -

Project Overview -

Develop a modern, premium, conversion-focused business website for manufacturer of

Water Tanks

PVC Pipes & Fittings

Water Storage Accessories

Planters

Utility Products

Commercial Plastic Products

The website should position brand as a **trusted national manufacturing brand** and dealership-focused business, similar to leading Indian brands like:

- Astral Limited
- Vectus Industries Limited
- Plasto Tanks and Pipes Pvt. Ltd.
- Penguin Tank Industries Ltd.

Reference brands are being used for:

- Premium UI/UX
- Product categorization
- Industrial branding
- Dealer acquisition structure
- Product presentation
- Trust-building elements

Primary Goals

1. Brand Positioning

Present brand as:

- Premium
 - Trusted
 - Pan-India manufacturer
 - Modern industrial brand
 - High-quality plastic solutions company
-

2. Lead Generation

Website should generate:

- Dealership inquiries
 - Distributor inquiries
 - Product inquiries
 - Bulk order inquiries
 - B2B partnerships
-

3. Product Showcase

Website should professionally display:

- Product categories
 - Product variants
 - Features
 - Capacity/specifications
 - Certifications
 - Applications/use cases
-

Target Audience

Primary

- Dealers
- Distributors

- Retailers
- Builders
- Contractors
- Hardware & sanitary shop owners

Secondary

- Homeowners
 - Architects
 - Commercial buyers
 - Landscapers (for planters)
-

Website Style Requirements

Design Language

- Premium industrial look
 - Modern corporate feel
 - Clean layout
 - Large product visuals
 - Strong typography
 - Minimal but powerful UI
-

Visual Style References

Take inspiration from:

- Astral
- Vectus
- Plasto
- Supreme Industries
- Ashirvad Pipes

Key observations:

- Full-width banners
 - Product-centric sections
 - Strong dealer CTA
 - Manufacturing credibility
 - Corporate color consistency
-

Website Structure

MAIN PAGES

1. Home Page

Sections:

- Hero Banner
- Company Introduction
- Product Categories
- Why Choose brand
- Manufacturing Strength
- Dealer Network
- Featured Products
- Testimonials
- Certifications
- Dealer Inquiry CTA
- Contact Section

Hero Banner Requirements:

- Large industrial visuals
- Water tanks/products
- Manufacturing imagery
- Strong CTA buttons:
 - Become Dealer
 - Download Catalogue
 - Contact Us

2. About Us

Include:

- Company history
- Vision & mission
- Manufacturing infrastructure
- Brand philosophy
- Quality commitment
- Pan India presence
- Leadership message

Optional:

- Factory images
 - Timeline section
 - Numbers/statistics
-

3. Product Categories

Create dedicated category pages.

Categories:

Water Tanks

Subcategories:

- Triple Layer Tanks
- Overhead Tanks
- Loft Tanks
- Underground Tanks

Pipes & Fittings

- PVC Pipes
- CPVC Pipes

- Agriculture Pipes
- Plumbing Solutions

Accessories

- Cooler
- Ghamela
- Milk Can
- Wheel Barrow
- Commercial Garbage Bin

Planters

- Decorative planters
- Garden planters
- Commercial planters

Product Page Requirements

Each product page should include:

- Product images
- Capacity/specifications
- Key features
- Benefits
- Usage/application
- Available sizes
- Color options
- Download brochure
- Inquiry form
- Related products

4. Dealership Page (Very Important)

Objective:

Generate dealership inquiries.

Sections:

- Why Partner With brand
- Dealer Benefits
- Margin/Business Opportunity
- Marketing Support
- Logistics Support
- Product Demand
- Inquiry Form

CTA:

“Become a brand Dealership Partner”

Lead Form Fields:

- Name
 - Business Name
 - City/State
 - Phone
 - Email
 - Existing Business Type
 - Investment Capacity
-

5. Infrastructure / Manufacturing Page

Include:

- Manufacturing plants
 - Technology
 - Quality control
 - Machinery
 - Production process
 - Warehousing
 - Packaging
-

6. Gallery / Media

Include:

- Factory images
 - Product shoots
 - Events/exhibitions
 - Dealer meets
 - Videos
-

7. Blog / Knowledge Center

SEO-focused articles:

- Water tank buying guide
 - Pipe maintenance
 - Water storage tips
 - Agriculture irrigation solutions
 - Gardening & planter trends
-

8. Contact Page

Include:

- Contact form
 - Google Map
 - Branch locations
 - Phone numbers
 - Email IDs
 - Social links
 - WhatsApp CTA
-

Technical Requirements

Platform

Preferred:

- WordPress
OR
 - Next.js / React (if custom)
-

Admin Requirements

Client should easily manage:

- Products
 - Blogs
 - Dealer inquiries
 - Media uploads
 - SEO metadata
-

Mobile Responsiveness

Website must be:

- Fully responsive
 - Fast loading
 - Mobile-first optimized
-

SEO Requirements

Basic SEO Setup

- Schema
 - Meta titles/descriptions
 - SEO-friendly URLs
 - Image optimization
 - Sitemap
 - Fast loading speed
-

Local SEO

Optimize for:

- Water tanks manufacturer India
 - PVC pipes manufacturer
 - Water storage solutions
 - Plastic products manufacturer
 - Planters manufacturer India
-

Lead Generation Features

Forms

- Sticky inquiry button
 - WhatsApp integration
 - Dealer inquiry form
 - Product inquiry form
 - Catalogue download form
-

CTA Placement

Every major section should include CTA buttons:

- Call Now
- Become Dealer

- Download Catalogue
 - Get Quote
-

Branding Requirements

Brand Feel

Website should communicate:

- Trust
 - Manufacturing strength
 - Scalability
 - Modern infrastructure
 - Nationwide reach
-

Performance Requirements

- Fast loading
 - Optimized images
 - Lightweight animations
 - SEO-friendly architecture
 - SSL enabled
 - Secure forms
-

Deliverables Expected from Developer

- UI/UX Design
- Responsive Development
- Admin Panel
- On-page SEO setup
- Speed optimization

- Contact form integration
 - WhatsApp integration
 - Product management system
-

Additional Suggestions

Optional Advanced Features

- Dealer locator
 - Distributor dashboard
 - Product comparison
 - 3D tank visualization
 - Catalogue download center
 - Multi-language support
 - State-wise dealership pages
-

Tone of Website

The website should feel:

- Corporate
- Premium
- Industrial
- Reliable
- Growth-oriented
- B2B focused

Avoid:

- Cheap template look
 - Over-animation
 - Cluttered layouts
 - Low-quality stock imagery
-

Final Objective

The final website should:

1. Build brand authority
2. Generate dealership leads
3. Showcase manufacturing capability
4. Improve digital presence
5. Compete visually with top Indian industry brands
